

# InSain'

Bobbleheads & More

Custom Handcrafted Bobbleheads for Every Occasion.

# The Problem with “Standard Issue” Gifting

Pens run out. Diaries get misplaced. Standard corporate gifts are often impersonal and quickly forgotten. They're an expense, not an investment in connection.

A gift should be more than an  
object. It should be a memory.

True recognition is personal. It's a story, a shared  
joke, a moment of achievement captured and  
made tangible. It's a gift that feels like it was  
made just for them—because it was.

# Our Purpose: To Turn Photos into Memories.

*"Every bobblehead is handcrafted with care. Minor variations are natural and are what make each piece truly one of a kind."*

We are a small creator with a big mission: to preserve the art of the handmade in a digital world. We don't just make products; we craft keepsakes that celebrate individual stories and create genuine moments of delight.

# **A Legacy of Artistry, Reimagined.**

For decades, Indian handicrafts were supported by institutions like the All India Handicrafts Board, established in 1952. Since its dissolution in 2020, a new generation of independent artisans is now carrying that legacy forward. InSain is proud to be part of this movement, blending traditional craftsmanship with modern design to create something entirely new.

# Our Craft: Where High Detail Meets Big Personality.

Hand-Sculpted  
Likeness

Premium,  
Durable  
Materials

Expressive &  
Unique Poses

# The Perfect Personalized Gift for Every Story.
